THADIKONDA SUDHEER

Full Stack Developer | Java · React · Python · Cloud & AI Integration

sudheerthadikonda0605@gmail.com • +91 7995393151 • Hyderabad, Telangana

linkedin.com/in/sudheer-thadikonda • github.com/sudheer1360

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience building scalable enterprise applications using Java Spring Boot, React.js, Python (Flask), REST APIs, and Microservices architecture. Hands-on experience with cloud platforms (AWS, GCP), database design (MySQL, MongoDB), and AI integration. Proven ability to deliver end-to-end solutions across frontend, backend, and deployment. Passionate about adopting GenAI tools, clean code practices, and continuous learning in multi-cloud and DevOps environments.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML5, CSS3, SQL
Frameworks & Libraries: Spring Boot, React.js, Flask, Node.js, Tailwind CSS, Bootstrap, Thymeleaf
Cloud & DevOps: AWS (EC2, S3, IoT Core), GCP, Docker (basic), GitHub Actions (CI/CD), Git
AI / ML: AI Integration (REST-based LLM APIs), OpenCV, Computer Vision, Deep Learning concepts, GenAI tools
Databases: MySQL, MongoDB, SQLite — query optimization, schema design
Architecture & Patterns: Microservices, REST APIs, MVC, Event-driven patterns, Role-Based Access Control
Tools & Platforms: Jira, GitHub, Postman, VS Code, IntelliJ IDEA
Emerging Tech: Blockchain (Smart Contracts, Web3), Prompt Engineering, LLM API integration

WORK EXPERIENCE

M. R. Soft Solutions | Junior Software Engineer

Aug 2025 – Present • Hyderabad

- **React.js, Java Spring Boot, and Microservices,**Developed and maintained scalable full-stack features using
- Built and integrated REST APIs for enterprise applications, enabling seamless frontend-backend communication with optimized response handling.
- **MySQL**Designed and optimized relational database schemas in
- Implemented component-based UI architecture in React.js with reusable, maintainable code across multiple enterprise modules.
- Participated in code reviews, production support cycles, and feature delivery aligned with agile sprint planning.
- Collaborated with cross-functional teams to translate business requirements into scalable technical implementations.
- **AWS cloud services**Leveraged

Makeskilled | IoT Developer & Technical Trainer

Jun 2023 – Jul 2025 • Hyderabad

- **Python (Flask), HTML, CSS, MySQL, and MongoDB,**Designed and deployed end-to-end web applications using
- **cloud deployment pipelines (AWS, GCP)**Integrated AI/ML features and
- Mentored 50+ students and project teams on full-stack development, Git/GitHub version control, and deployment best practices — simulating a lead developer role.
- **AI integration, LLM APIs, blockchain (Smart Contracts, Web3), and security-first development,**Delivered technical sessions on
- Implemented blockchain concepts including smart contracts and decentralized applications into demo platforms, broadening exposure to emerging architectures.
- **Docker**Introduced CI/CD concepts and containerization basics (

KEY PROJECTS

FYNDYNE Admin — Restaurant Management Platform

React.js · TypeScript · Vite · Tailwind CSS · Zustand · TanStack Query · REST APIs

- Built a multi-role admin platform (Super Admin, Vendor, Waiter, Chef) with role-based access control supporting 10+ core modules including POS, kitchen ops, billing, and audit logs.
- Integrated REST APIs using a modular frontend service architecture with efficient client/server state management via Zustand and TanStack Query.
- Delivered responsive, reusable UI components with React + TypeScript for scalable enterprise-grade frontend.

News Portal Web Application

Java · Spring Boot · MySQL · Thymeleaf · Bootstrap · JavaMail · MVC Architecture

- Developed a dynamic, role-based news portal with user/employee/admin dashboards, news publishing, job application workflows, and automated email notifications via JavaMail.
- Structured using MVC architecture with layered controllers, services, and repository layers over a MySQL backend.

Farm Tools Rental & Marketplace

Python · Flask · SQLite · Bootstrap · JavaScript · Flask-Mail

- Built a full-stack marketplace connecting farmers to rent/sell agricultural tools with secure auth, responsive UI, search/filter, and email alerts — deployed with environment-based configuration.

EDUCATION

B.Tech in Computer Science & Engineering — Chalapathi Institute of Engineering & Technology, Guntur
2019 – 2023 • CGPA: 6.79

CERTIFICATIONS

Architecting with Google Compute Engine — Google Cloud / Coursera
AWS Academy Cloud Foundations — Amazon Web Services
